

# Mount Your Radios With Ease

## FlexiMount XL

The FlexiMount XL is a pole and surface mount accessory that accommodates both vertical and horizontal pole mounting applications, as well as basic flat wall mounting where minimizing the distance of the radio, relative to the wall, is important. The FlexiMount XL, which replaced the original FlexiMount, boasts a heavy-duty design, a long pole length and base, and a wide articulation angle of 180°.

### Flexible

Suitable for vertical, horizontal, and angled poles, Mimosa's FlexiMount XL is able to be mounted in any orientation.

### Ready-to-Use

Mimosa's FlexiMounts XL comes preassembled, right out of the box. It's ready for any backhaul, access point, or radio to be attached to it.

## Specifications

### FlexiMount XL

- **Weight:** 0.60 kg (21.3 oz)
- **Mounting Base:** 45 mm (1.77") x 127 mm (5.0")

C5x (native 8 dBi)  
C5x + N5-x12 Horn  
C5x + N5-x16 Horn  
C5x + N5-x20 Dish  
C5x + N5-x25 Dish  
B24

#### Vertical Poles

The FlexiMounts come assembled, ready for vertical pole configurations, using the indicated pipe clamp slots in the diagram above.

#### Angled and Flat Poles

The FlexiMounts can be mounted in any orientation on angled and flat poles. To pivot the articulation direction, rotate the mounting base to the desired orientation.

#### Flat Surfaces

The FlexiMounts include two (2) convenient mounting screw hole points, allowing mounting to any vertical, sloped or horizontal surface.

Mimosa Networks, a wholly owned subsidiary of Radisys, is the global technology leader in wireless broadband solutions, enabling service providers to connect dense urban and hard-to-reach rural homes at a fraction of the cost of fiber. Mimosa Networks was acquired in 2023 by Radisys Corporation, a wholly owned subsidiary of Jio Platforms Limited.
